| • Java | • Database Management | • python |

Projects

SmartGas Alert: IoT-Based LPG Leak Detection and Auto Shutoff | *Python, Firebase, Blynk* **Feb 2025**

- Develop a smart IoT system that detects LPG gas leaks in real-time, sends instant alerts via mobile notifications/SMS, and automatically shuts off the gas supply to prevent hazards.
- Ensures safety in homes, industries, and restaurants by reducing the risks of fire, explosions, and health hazards, providing an automated, reliable, and faster response than traditional methods

Amazon clone | *HTML, CSS, javascript*

September 2024

- A responsive and interactive e-commerce website clone of Amazon, built using HTML, CSS,javascript.
- The project focuses on replicating the core user interface of Amazon's homepage, product detail pages, and basic navigation features, providing an immersive online shopping experience.

Technical Skills

Languages:Java, HTML/CSS, C, SQL, Basic JavaScript

Developer Tools: VS Code, Eclipse, IDLE , Android Studio

Soft Skills

Team Collaboration
Decision-making
Leadership

Certificate

Meritorious Student Award
Java Workshop C & C++
programming

Extra-curricular

ICON Event

Vice-President

Sveri's College of Engineering, Pandharpur

- Lead the event planning, team management and collaboration, ensuring smooth operations for successful execution.
